

Tennessee Gas Pipeline  
Company, L.L.C.  
a Kinder Morgan company

## COMMUNITY OPEN HOUSES

Tennessee Gas Pipeline Company, L.L.C. (TGP), is planning five informal community open houses in September. The open houses will be held to provide interested Granite Staters an opportunity to learn more about TGP's planned Northeast Energy Direct Project (NED). In order to meet growing market demand for natural gas in New Hampshire and New England, Kinder Morgan is proposing the NED Project to expand and upgrade its existing pipeline system in Pennsylvania, New York, Massachusetts, New Hampshire and Connecticut.

The project involves the construction of approximately 71 miles of new pipeline in New Hampshire, generally co-located with existing utility corridors and modifications to existing and construction of new compressor stations and meter stations. The target in service-date for the project is November 2018.
